EASY-CUT 1000 SERIES

Product Description

Easy-Cut 1000 was the first box cutter that addressed safety to the user, productivity in the workplace, and reducing product damage all in one product! This cutter offers a patented radius-tip blade and 3 precise blade-depth settings to easily slice through any cardboard box (single, double or triple wall), without causing damage to product inside!

Industries Served

- Food and Beverage
- Furniture and Fixtures
- Logistics and Transport
- Order Fulfilment
- Pharmaceutical
- Retail
- Storage and Warehousing

Suitable for both left and right handed users, a gentle squeeze of the ergonomic handle extends the blade naturally, reducing repetitive thumb motion injury common with other box cutters. When the handle is released, the blade instantly retracts inside the unit for safe storage, reducing accidents and injuries when not in use.

Convenient dual-sided edge guides enable users to make quick, accurate top cuts, and slides back into locked position when cutting is complete. The handy clip-on holster and lanyard rotates 180-degrees, ensuring easy reach and secure placement on a belt loop. This feature also reduces injury and down-time looking for lost cutters. The on-board blade storage compartment enables fast and tool-free blade changes, safely done in seconds.

Key Features

- Ambidextrous edge-guide
- Back-up blade storage
- Clip-on holster and lanyard
- Ergonomic handle
- Radius-blunt tip blade
- 3 blade-depth settings
